

Greetings!

Eco-culture Seracon/ Two Lumps of Sugar Canada is committed to improve quality of living, offering high quality products.

We have launched our Facebook page with videos (shows, our candle making, etc.), contests, related stories pictures and more. Please visit our different venues, as listed below.

Our fabulous candles are 100% organic hand-poured made from essential oils with a choice of 17 fragrances. With winter around the corner, you might enjoy the crackling sound of our wooden wick candles, creating a cozy and ambient atmosphere.

We have gifts that grow: edible flowers, micro-greens. Experience the joy of planting a tree! Great as a fundraiser or for special occasions such as wedding, new homes, babies and great stocking stuffers. We have gifts that glow: candles, spa items that include dead sea salt, our beautifully scented pine cones.

October is Breast Cancer Awareness month, we encourage you to support this movement. Pink is in!!

There will be more videos as well as other material for you to follow.

Please investigate our links as listed below.

Sincerely,

The Seracon Team
