

Newsletter

September

We are delighted in sharing the excitement of great changes in our growing company.

- Seracon eco-culture is the Canadian distributor of Two Lumps of Sugar. Two Lumps of Sugar is a fabulous coordinated textile line for home and travel that keeps growing with new products.

- Another special introduction of this season is our New 100% Certified Organic Soya Candles with Wooden Wicks. When lit, these candles diffuse wonderful fragrances with a steady flame that gives a subtle crackling sound. Besides being long burning, our candles are the cleanest burning candles you will find anywhere!

- Seracon successfully participated at the CGTA show in August. It was a great opportunity to show our 3 lines: Gardens, Organic Candles & Spa Collection, and Home/Travel collection by Two Lumps of Sugar.

- We also had great success at the NYIGF show later in August.

- We have launched a website for our new product line www.twolumpsofsugar.ca.

- More to come...

Sincerely,
The Seracon team
